ESSENTIAL QUESTIONS

These questions aim to gather key information and context to help us write the best press release.
Avoid technical terms and jargon. If you need more space, use a separate page.

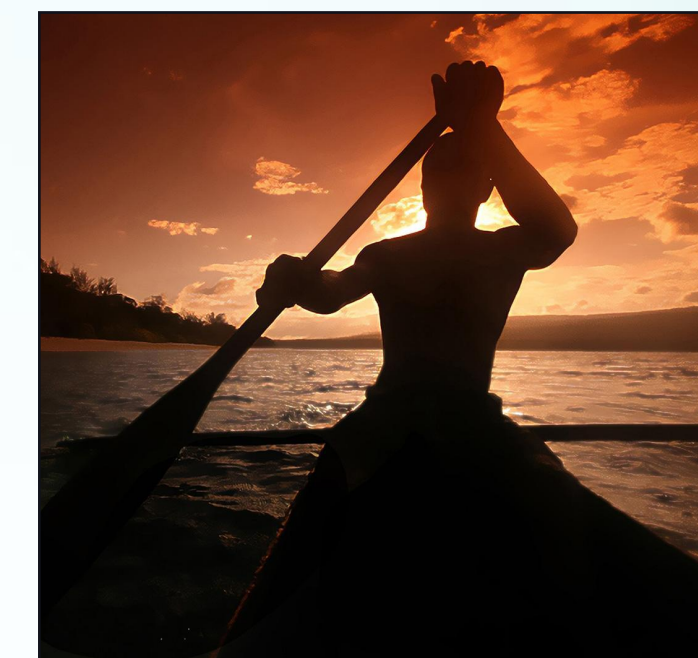

1. What are this study's most significant findings?

2. Why do you think the media and general readers would be interested in this research?

3. What further research do you plan to do in this area?

Submission instructions |

Please email your submission(s) to:

Magdeline Pokar: **maggie@asiaresearchnews.com**

Aya Kawanishi: **aya@asiaresearchnews.com**

Don't forget to attach:

1. Completed Press Release Request form
2. PDF of your research paper or other supporting documentation
3. Photos/graphics (For each image, please provide credit and caption)

If you have any questions about your submission, please contact us. We are here to help!

THANK YOU
for completing the press
release request form

Asia Research News

WHY ASIA RESEARCH NEWS

Science Journalists

What grabs the attention of journalists? Our writers and editors are talented science journalists who constantly produce top-notch stories that speak to international media.

Time is valuable

We are reputable for the fast turnaround. A tight deadline? Tell us your timeline and our experienced team will deliver it without compromising on the quality.

News waits for no one

Our high quality drafts mean that there is only minimum revisions required from researchers. Your press release is ready just in time for busy journalists to pick up.

MORE THAN PRESS RELEASES

People consume news in many different ways. We help you reach them.

Custom Distribution

Chosen from our database of 660,000 journalists

Podcasts

1 in 4 people online listen to podcasts

Videos

2.6 billion people watch YouTube a month

Social media reels

Reach diverse young audiences

Magazine

Showcase your research all year to 190 countries online and in print
